PROFESSIONAL SUMMARY

Salesforce engineer with 18+ years in IT consulting, including 12+ years designing and delivering enterprise Salesforce solutions on Experience Cloud, Sales Cloud and Service Cloud. 8x Salesforce Certified, including Application Architect. Leads development teams, owns GitLab CI/CD release management, and connects business stakeholders with engineering. Applies agentic AI in day-to-day engineering, using Claude, Devin and Google Antigravity, and deploys AI agents and MCP servers on DataRobot.

CORE SKILLS

Salesforce development: Apex, Lightning Web Components (LWC), Aura, Lightning Message Service, Lightning Data Service, Visualforce, SOQL/SOSL, Salesforce DX

Salesforce platform: Experience Cloud, Sales Cloud, Service Cloud, Flows, security model (profiles, roles, permission sets, sharing rules)

Integration: REST/SOAP callouts, Platform Events, MuleSoft, SAP, Twilio, SAML single sign-on (Okta)

DevOps & release: GitLab CI/CD, delta deployment pipelines, GitHub, Bamboo, release management

AI & agents: Claude (Claude Code), Devin, Google Antigravity, AI agent deployment, Model Context Protocol (MCP), DataRobot

Data: Data Loader, Workbench, data migration and cleanup, SQL performance tuning

Earlier stack: C#, ASP.NET Web API, NHibernate, MS SQL Server, SharePoint

Ways of working: Agile/Scrum, story point estimation, sprint planning, code review, mentoring

AI & AGENTIC ENGINEERING

- Use Claude (including Claude Code), Devin and Google Antigravity as part of everyday development work.
- Deploy AI agents and Model Context Protocol (MCP) servers to DataRobot.

PROFESSIONAL EXPERIENCE

Principal Software Engineer (Senior Salesforce Developer)

May 2021 – Present

Dell Technologies Malaysia — Cyberjaya, Selangor

- Lead developer for Dell's partner portal on Experience Cloud and Sales Cloud, working with business and support teams to turn requirements into scalable solutions.
- Built a reusable generic list view that supports custom action buttons in Experience Cloud.
- Own release management on GitLab CI/CD, and designed and implemented a delta deployment pipeline that ships only changed components, cutting deployment time.
- Mentor team members and review code and technical designs for Salesforce best practice, compliance and performance.
- Facilitate Scrum ceremonies, including estimation poker, sprint planning and retrospectives.

Salesforce Developer Team Lead

Jul 2019 – Mar 2021

TTMS Software Sdn. Bhd. — Subang Jaya, Selangor

- Led a Salesforce team for a US pharmaceutical client across Southeast Asia and Australia/New Zealand.
- Delivered CRM enhancements supporting cancer patients and healthcare providers.
- Integrated Salesforce with SAP through MuleSoft and implemented SAML-based single sign-on with Okta and the client's OCID identity service.
- Oversaw releases using GitHub, Bamboo and Salesforce DX, and acted as the main liaison between business stakeholders and engineering.

Software Engineer (Salesforce Consultant)

Nov 2018 – Jul 2019

Lizard Apps Malaysian Development Centre — Kuala Lumpur

- Implemented an in-house CRM and customized Salesforce for European and regional clients.
- Built Lightning (Aura) components with Apex controllers and provided production support.

Associate Projects (Salesforce Consultant)

Oct 2014 – Oct 2018

Cognizant Technology Solutions — India

- Delivered Service Cloud implementations for clients including First Data and Fleetcor.
- Configured Email-to-Case, Web-to-Case, queues and escalation rules.
- Built Lightning apps, reports and dashboards, integrated managed packages such as Milestone PM+, and configured user access.
- Designed and built data export features using Visualforce and Lightning.

Earlier Career: .NET & SharePoint Engineering (2008 – 2014)**Sr. Solution Integrator, Ericsson India Global Services**

Jul 2013 – Oct 2014

- Migrated legacy applications into a .NET e-business portal; designed APIs, led UAT deployments and tuned performance.

Software Engineer, Geotech Informatics

Sep 2011 – Jul 2013

- Built NHibernate data models and REST APIs for e-commerce and survey platforms; managed MS SQL databases and UAT deployments.

Consultant, Capgemini

Nov 2010 – Sep 2011

- Delivered the IVFRT visa application and registration system for VFS Global; built data access layer components and stored procedures.

Assistant Systems Engineer, Tata Consultancy Services

Aug 2008 – Nov 2010

- Automated PMO processes for Dow Chemical and built CRM portal features for ING Netherlands on SharePoint.
